

Brewster Garden Tours
Tuesday July 9 and
Wednesday July 10
10am to 4pm Rain or Shine

Hosted by the Garden Club of Brewster

- 1. 229 Robbins Hill Road** – Bay Winds Garden welcomes you with a multi colored patchwork quilt of day lilies and a bank of Golden Pacific spreading juniper. Stroll this small but fully landscaped park like setting with a charming backyard She Shed bordered by a compass rose patio, flower gardens and vegetable patch. Stepping stone paths lead to countless hydrangea bushes, trees and white climbers on a scalloped cedar fence. Flower boxes, containers and garden art complete the experience.
- 2. 83 Run Hill Road** – This garden sanctuary is on two plus acres of gently rolling land with perennial, shrub and vegetable gardens spread throughout and includes a short trail through the woods. The perennial and shrub gardens are a combination of native and exotic species in a variety of colors. The property uses minimal irrigation, no herbicides and occasional organic pesticide in the garden. This property is a sanctuary for deer, ducks, turkeys and many birds.
- 3. 126 Commons Way** – This garden oasis includes different varieties of ornamental trees, bushes, including hydrangeas, and flowers scattered throughout the property. Numerous perennials, native and pollinators create beautiful shades of color within the gardens. Lilies, coral bells, cone flowers, black-eyed susans, red cardinal, allium and large red canna lilies are a few of the flowers to enjoy. Metal yard art and driftwood adorn the gardens and container pots are placed around the grounds, deck and porch.

Each tour costs \$5/person. Proceeds support projects of the host organization.
